

LIST OF OTTILIEN BABIES (alphabetical)

The birth register of the local community of Eresing is for reasons of data protection (120 years) not available. The following data is drawn from the publicly accessible archive of Bad Arolsen (<https://www.its-arolsen.org/archiv/>) which stores data from different sources like UNRRA or the Red Cross. The names' spelling often differs, especially the birth places. The country of origin of the mother is often not easy to define because at this time the borders between the East European countries shifted considerably.
